Here's to the start of something extraordinary!

Stocks

XP prices are at 2.4d, which is 70% higher than November 2024. Is this a sign of impending inflation in our nation?

Politics

The general election in Icenia is imminent and everyone is required to register to vote. As of writing, places to register include the Statue Of Liberty, Blue Cove and the AP.

In other politics news, Icenia has a new flag. You could say that blob is the new circle! The new flag, which is similar to the old one, has a small, tumor like growth on the top left. Civilians have divided opinions on this matter.

Bill of the tabloid!

This tabloid's chosen bill is an amendment to Article IV, Section (a). It proposes a change to speed up the legislative process. It introduces two key changes:

1. Override Vote for Constitutional Amendments

An override vote (which is a vote 85% or more in favor) can now only be applied to constitutional amendments if it is unanimous.

2. Automatic Veto Clause

If the president does not approve or veto a bill within 5 days after it meets the voting threshold, it is automatically vetoed.

All in all, these changes put together aim to prevent delays in government decision making and also speed up the implementation of important bills.

The Courtrooms

1. Shadno v _SSG_

Shadno is taking _SSG_ to the court rooms as they feel that _SSG_ violated Article VII of the constitution by "brutally killing all of the sniffers" in their garden. _SSG_ is planning on getting a lawyer for this case and Kingstell is looking to start the trial soon.

2. Lopster Bisque v Icenian Government

Lopster wanted to sue the government due to a lack of payment after expanding the city's vault on 19/10/24. This case was shortly dropped after a member of the government paid the wages owed.

Thank you all for reading this first publication of this paper, and I hope that this will be the first of many more to happen!
