---

It's been great writing the first edition of our newspaper here on CivMC and as Icenia is entering voting season, we are going to have a bit of a MINI paper focused on the politics around Icenia in order to show one of the parties that you can vote for on these coming days!

---

## Politics

Right, let's start by saying who you can vote for:

Up first, it's the Blue New Deal (BND)!

What can you expect from them? They are going to begin the process of building an economy district in our city. Well, you might say, what does this mean for us? Well it seems as if the city center is potentially going to get done up! This or there could be a new dedicated place! This means that those who are wanting to open a shop etcetra have a specific location to set up shop there!

Next, they want to create more Tier 2 jobs for newfriends to complete to become citizens this could include simple jobs like farming, or even finding new stories for this paper! This gives newfriends more opportunities / choice for what they do on their path to citizenship!

Next, to talk about Kingstell's party.

He is determined to remove the newfriend containment zone in place for his own little market, which many of the newfriends are not impressed with.

The Local Icenian is hosting a poll, which at the time of writing seems to be leaning towards the BND by a large margin, to see the general consensus under 24h before voting opens! As a civilisation, us Icenians can't wait for the election and for our favourite candidates, whomever they may be, to win!

## Competition Time!

That's right! We are holding a Best Build Competition on the newspaper. Simply send your build in #builds-competition and the winner will earn 16 diamonds into their bank account directly! Just go to <https://discord.gg/P9MMpW92eA> to get started, and get building! Good luck!
